

LITERACY LEARNING FOR STUDENTS BELOW GRADE LEVEL

Educators discuss the effectiveness of Voyager Passport® Literacy Intervention | Grades K–5

Designed to support students with literacy learning gaps, Voyager Passport is an intervention program that strategically targets priority reading skills to accelerate the performance of students reading below grade level. It provides impactful instruction and follows the research-based Structured Literacy approach recommended by the International Dyslexia Association. As educators agree, Voyager Passport is the ideal resource to improve literacy results for struggling readers, Emergent Bilinguals, and at-risk students (including students with dyslexia and other reading disabilities).

The Voyager Passport program is the most comprehensive program I have ever seen. I have seen tremendous growth in all of my students.

**Kim Wagner, Former Special Education Teacher,
Oxford Elementary School, Oxford, AL**

Voyager Passport takes the five reading components and hits every one of them every day. It works, and the proof is in the student success!

**Candace Dearing,
Former Principal,
Phillippi Shores Elementary
School, Sarasota, FL**

My most resistant teachers have come to me and said, 'I'm glad we have this program; it's worked wonders for my kids and myself.'

**Jacqueline Benally, Principal,
Kayenta Primary School,
Kayenta, AZ**

**When educators
used Voyager Passport
with struggling readers,
the results and reactions
were impressive!**

For intervention, we needed a more intensive program that covers all five elements, that's easy for the teacher to use, that students respond well to. That's where Voyager Passport fits in very well, no matter the core.

Jim Herman, Reading First Director, TN

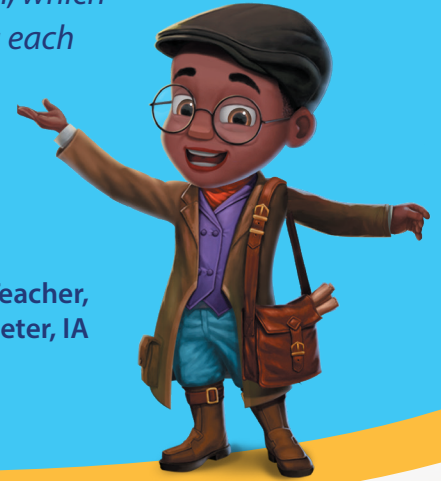

PLUS! Voyager Passport comes with Reading Rangers Online Independent Practice program

"My kids love Reading Rangers—they're captivated by the graphics! Students are completely focused on their own learning. They're mastering all the standards that are specific to their grade level, which has been a great supplement to what I am teaching each day. There are so many built-in incentives to keep students engaged and striving forward. This is definitely a welcome addition to our classroom reading stations."

—Tracy Ferguson, Teacher,
Van Meter Community School, Van Meter, IA

Voyager PASSPORT

- ✓ **Proven:** ESSA research-based
- ✓ **Comprehensive:** Five essential components and includes language and writing
- ✓ **Effective:** 30 minutes a day
